

Date:11/2/8

Wednesday Challenge Form

Group Members: Max and me

Problem Statement: make a sketch up of the Letter “E” and give it to someone else to have Them make it out of cardboard.

Approach: We made our Sketch Up as simple As we could so that the other team could make It as easy as possible. We did this because if One team wins both get the A.

Solution: We made the E sketch up easy so the other would have a easy time making it. We got a 10 in. E and tried to make it

Lessons Learned: Make an easy E and check how your Measurements.
