

Wednesday Challenge Form

Group Members: Alex, Garen, Me

Problem Statement: Build the tallest building
You can with gram crackers, marshmallows,
Pretzels.

Approach: We made a design that we thought
Would be good. We got a pretzel and put a
Marshmallow on each side then a gram cracker
On top then made the same design on top. The
Design we got back was simply 4
Marshmallows and then a gram cracker on top
Then you repeat that design.

Solution . We got a pretzel and put a Marshmallow on each
side then a gram cracker on top then made the same design
on top

Lessons Learned: Make a easy design for the other team.
